Key New Rate Popular Rate

Rates are correct as at the date listed above. Rates are subject to change or withdrawal. All rates shown are Annual Equivalent Rates (AER), illustrating what the interest rate would be if interest was paid annually. Terms of notice account rates may be up to 5 days longer than the period advertised.

The minimum deposit required to open a Flagstone platform account is £250,000. Dependent upon the value of the deposit (and whether you are an individual, looking to open a joint account, or acting on behalf of a company or charity), different banks, accounts and rates will be available to you on the platform. The number of accounts available to clients may be reduced dependent upon their domicile, residency and other factors.

Accounts created on the Flagstone platform with onshore UK banks provide clients with the same Financial Services Compensation Scheme (FSCS) protection as if the client placed the deposit directly with that bank. The deposit protection provided by the FSCS is currently £85,000 per eligible depositor per authorised institution.

Flagstone is authorised and regulated by the Financial Conduct Authority (FCA), Register Numbers 676754 and 605504.
